# How Do I Recover My Coinbase Passkey? {Get Instant Help}

Recovering+1-888-394-2349 [USA/OTA] your Coinbase passkey depends on where your passkey was created and how it was stored.+1-888-394-2349 [USA/OTA]+1-888-394-2349 [USA/OTA] A passkey is not stored directly by Coinbase+1-888-394-2349 [USA/OTA]; it is managed by your device, operating system, browser,+1-888-394-2349 [USA/OTA] or password manager.+1-888-394-2349 [USA/OTA] If you cannot use your passkey, start by checking+1-888-394-2349 [USA/OTA] whether you are signed in to the same Apple ID, Google account, browser profile,+1-888-394-2349 [USA/OTA] or password manager where the passkey was originally saved.+1-888-394-2349 [USA/OTA] For example, if your passkey was stored+1-888-394-2349 [USA/OTA]  in iCloud Keychain, Google Password Manager, or another supported credential manager, restoring access to+1-888-394-2349 [USA/OTA]that service may allow you to use the+1-888-394-2349 [USA/OTA] passkey again on a compatible device.

If you+1-888-394-2349 [USA/OTA] lost access to the device containing your Coinbase passkey, you can try another available+1-888-394-2349 [USA/OTA] Coinbase login method, such as your password, two-factor authentication method, +1-888-394-2349 [USA/OTA]or account recovery process.+1-888-394-2349 [USA/OTA] After regaining access to your account,+1-888-394-2349 [USA/OTA] you can add a new passkey from your Coinbase security settings. If you cannot access+1-888-394-2349 [USA/OTA] your account because your passkey was+1-888-394-2349 [USA/OTA] your only sign-in option, you may need to complete Coinbase's account recovery process+1-888-394-2349 [USA/OTA] and verify your identity. Since passkeys are+1-888-394-2349 [USA/OTA] controlled by your device or credential provider,+1-888-394-2349 [USA/OTA] Coinbase cannot recreate or send you a replacement passkey.+1-888-394-2349 [USA/OTA] For your protection, never share passwords,+1-888-394-2349 [USA/OTA] authentication codes, or recovery information with anyone claiming to recover your Coinbase passkey.

## Related FAQs

### 1. Can Coinbase recover my lost passkey?

No.+1-888-394-2349 [USA/OTA] Coinbase does not store or control your passkey. Passkeys are managed by your device,+1-888-394-2349 [USA/OTA] browser, or password manager, so recovery depends+1-888-394-2349 [USA/OTA] on where your passkey was saved.

### 2. How do I restore my Coinbase passkey on a new phone?
